SUBJECT: Information on Alba's "Integrity Line"	

At the outset, we would like to thank you for your business relationship with Alba during the year 2007, and extend our best wishes for a bright & prosperous New Year.

In its continuous and undisputed belief in upholding the highest standards of ethical and professional behaviour, Alba has recently introduced its new Code of conduct, which has been specifically designed to promote and integrate a total system that targets encouragement of honest and ethical conduct to all those who are concerned and involved in any business transaction with Alba. In addition, an Integrity line, has also been implemented which will provide a total transparent culture of corporate governance, in order to accord with His Majesty the King's economical and political reform program, supported by our Board of Directors and Shareholders.

The Integrity line is designed to enable employees, vendors, contractors, suppliers & customers to report violations and frauds in Alba's business dealings. Users of this line can report any information through the e-mail, internet websites and direct international line to communicate with Alba's international consultant in the field.

Please visit our website www.albasmelter.com for full information about our Integrity line under the title 'Guide to Business Conduct' in the 'Publications' tab.

Thank you for your understanding and continued support.

Best Regards,
For ALUMINIUM BAHRAIN B.S.C.

Ahmed Saleh Al Noaimi
(Chief Executive Officer)
